## SUMMARY

Passionate and skilled Blockchain Developer offering 4 years of relevant experience and a proven track record of success in achieving extraordinary results. Co-founded BigWhale, FGDSwap, a DEX with over 2M TVL. Mastered JavaScript, React JS and PHP. Extensive knowledge in smart contracts, DeFi, Dapp. Looking for a job as a Blockchain Developer that will allow me to build the financial system of tomorrow.

## EXPERIENCE

### Blockchain Developer

#### Sameer Group LLC

2020 - 03/2023 India, United States

**Sameer Group** is a privately owned holding company involved in Real Estate & E-Commerce through its subsidiaries Sameer Real Estate Pvt. Ltd and Sameer Group, LLC operating in India and in the United States.

- I joined this team in 2020 and worked as lead developer and created many smart contracts and tokens like OMAX token in 2021. "OMAX is one of the fastest growing projects which is moving from BEP20 to their own network (blockchain OMX20) which is also a EVM compatible." Sameer Group's founder Syed Sameer Ali said.
- I created BNB Staking & Lending protocol named "Bigwhale.io" this year in team. BigWhale.io is a Certik Audited DeFi staking & lending protocol built on the Binance Smart Chain which works like a DeFi bank connecting high-interest borrowers & stakers.

### Javascript Developer

#### Freelancer.com

09/2014 - 2019 Vinnytsya, Ukraine

I worked as freelancer for 6 years in Freelancer.com, Fiverr.com.

- Led the development of a responsive web application using React, resulting in a 30% increase in user engagement.
- Implemented real-time data updates using WebSocket technology, enhancing the application's user experience.
- Collaborated with cross-functional teams to ensure seamless integration of front-end and back-end components.
- Developed and maintained a RESTful API using Node.js and Express, handling over 10,000 requests per day.
- Optimized critical JavaScript code segments, reducing page load times by 20% and improving SEO rankings.
- Implemented automated testing using Jest, increasing code coverage to 85% and reducing bug instances.

### Junior Developer

#### Gibson Group PLC

12/2012 - 08/2014 New York, NY

This company offers online payment processing and commerce solutions for Internet businesses.

- Completed 10+ projects
- Improved user interfaces by updating menus to be more intuitive, attracting 5% more clients than the previous quarter
- Participated in developing a complex bookkeeping system that handled financial transactions 60% more efficiently than the previous one
- Improved database performance by 12% by using materialized views and stored procedures
- Assisted in troubleshooting and debugging, resolving issues to meet project deadlines.
- Actively participated in code reviews, refining code quality and ensuring adherence to coding standards.

## SKILLS

Blockchain Technology

Web3

Smart Contracts

DeFi

Dapp

Cryptography

Cryptocurrency

React JS

Typescript

NFT marketplace

HTML

## EDUCATION

### High School Diploma

#### Ukrainian Physics and Mathematics Lyceum

09/2008 Vinnytsya, Ukraine

### Bachelor of Computer Science

#### Kyiv National University of Technologies and Design

10/2012 - 06/2017 Kyiv, Ukraine

## STRENGTHS

#### Collaboration

I don't just work together. I want to thrive together. I believe in pooling diverse talents and perspectives to solve complex challenges and deliver exceptional solutions.

#### Attention to Detail

Precision and accuracy are paramount in my coding and designing and my unwavering attention to detail sets the foundation for my contributions.

#### Prioritizing

The skill of prioritization is the compass that guides successful project execution. My adeptness at prioritizing tasks ensures optimal resource utilization and on-time delivery of projects.

## INDUSTRY EXPERTISE

#### DeFi & DAPP Protocols

#### Smart Contract & Token

#### NFT minting and Staking, Marketplace

# PROJECTS

---

## Bigwhale.io

📅 01/2023 - 03/2023 📍 India

**Bigwhale** is a BNB Staking & Lending protocol that allows people stake or borrow BNB on the Binance Smart chain.

- Co-founded the protocol and served as senior blockchain developer
  - Build smart contract code and pass Certik Audit
- 

## FGDSwap

📅 10/2022 - 02/2023 📍 United State

FGDSwap is a large DEX with NFT staking, Lottery, special referral system.

- I severed as senior blockchain developer
- Designed Frontend, Created node server for lottery API, built all contracts including NFT staking, referral, lottery.
- Created high quality code and led dex to success. (TVL was over 2M)
